## Robotic Process Automation

Deploying Robotic Process Automation (RPA) solution will not only **transform and streamline the business's workflow**. Software robots can be easily integrated into the enterprise system seamlessly. It ensures enterprise scalability to tailored response to specific needs for business enhancement.

### Improve Service Quality

Improve service quality by using accumulating and analyzing new data by robots that work 24x7.

### Reduce Workload

Robots do the tasks instead of human to reduce workloads and you can work on more advanced tasks by using that time.

### Increase Productivity

Improve productivity at hundreds of times faster than people do by working with robots.

### Reduce Human Errors

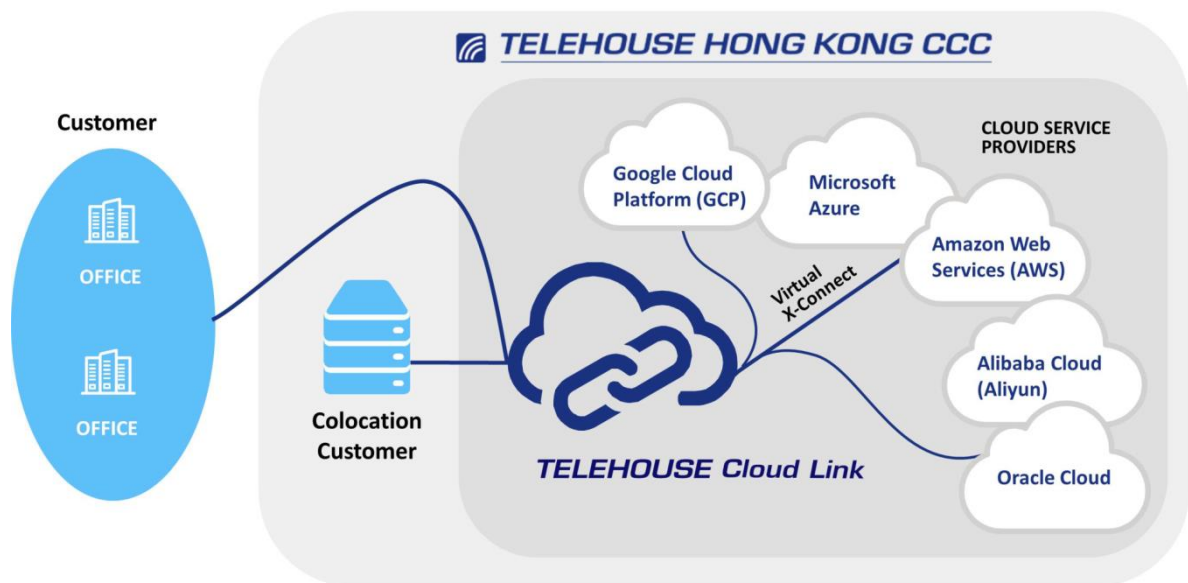

By robotic automation, human errors will be reduced and accuracy of work will be improved.

**“RPA makes the works automated by letting robots to remember jobs”**

## Telehouse Cloud Link

Telehouse Cloud Link offers **end-to-end connectivity** solutions that simplify, secure, and speed up your global cloud networking and last mile requirements.

## HKIX Direct Connect

Telehouse Hong Kong CCC has become Satellite POP of HKIX as HKIX5. Satellite POP and HKIX are connected by **diversified backbone**. Direct Connections to HKIX within the Data Center satellite POP for a **lower price and seamless** service for especially Internet Service Providers (ISP) and Content Service Providers (CSP) customers. **Without any need for local access circuits** and in a short lead time.
